

VALUE ADDED EXPERT ADVISORY TEAM

Team SeniorAbode* specializes in the 50+ homewner market. Members work with our clients not only in their specialty but consider the customer's big picture objectives.

*Team SeniorAbode consists of independent professionals, each of whom is in business for himself/herself. Each team member whom a client chooses to retain would contract separately with the client. While fulfilling all duties to the client as a first priority (for example, client confidentiality), each team member would coordinate with other retained team members (as well as other persons) as the client directs to accomplish the client's goals.
